#### **Item 2.01 — Completion of Acquisition or Disposition of Assets**

On May 14, 2019, Essential Properties Realty Trust, Inc., a Maryland corporation (the “Company”), through its operating partnership, Essential Properties, L.P., a Delaware limited partnership (the “Operating Partnership”), fully borrowed on its previously announced \$200 million five-year senior unsecured term loan (the “Term Loan Facility”). In a subsequent transaction, on May 14, 2019, the Company repurchased \$200 million of its Class A Series 2016-1 ABS Notes from an affiliate of Eldridge Industries, LLC (“Eldridge”) for a 70 basis point premium to face value, for an all-in cost of approximately \$201.4 million.

Eldridge, through affiliates, owned approximately 13.5% of the Company’s outstanding common stock as of March 31, 2019 (34.9% of the Company’s outstanding common stock assuming the exchange of all of the units of the Operating Partnership held by affiliates of Eldridge for shares of common stock). In addition, Eldridge is a party to a Stockholders Agreement with the Company that provides Eldridge with certain rights, including specified board nomination rights. Two of the Company’s directors, Todd J. Gilbert and Anthony D. Minella, are affiliated with Eldridge, with Mr. Gilbert serving as a principal and Mr. Minella serving as Eldridge’s president.

The purchase price of the Class A Series 2016-1 ABS Notes was the result of an arms’ length negotiation between the Company, represented by its senior executives with no relationship with Eldridge beyond their respective roles at the Company, and the holder. The transaction was approved unanimously by the Company’s independent directors.

On May 15, 2019, the Company, through its Operating Partnership, also entered into three swap transactions that fixed LIBOR (London Interbank Offered Rate) for purposes of the \$200 million borrowed under the Term Loan Facility for five years at a rate of 2.063%. Accordingly, after giving consideration to these swap transactions and based on the Company’s current leverage ratio, the all-in interest rate on borrowings under the Term Loan Facility is 3.263%, which represents interest rate savings of 119 basis points on the repurchased Class A Series 2016-1 ABS Notes.

As a result of these transactions, the Company increased its weighted average debt maturity to 4.68 years from 3.75 years, lowered its weighted average interest rate to 3.89% from 4.35%, and reduced its percentage of secured debt to 61% from 100%.

#### **Item 7.01— Regulation FD Disclosure.**

On May 17, 2019, in connection with the transactions described above, the Company issued a press release, a copy of which is attached as Exhibit 99.1 hereto and is incorporated by reference herein.
