CEO Comments

Commenting on the third quarter 2023 results, the Company's President and Chief Executive Officer, Pete Mavoides, said, "We are pleased to report strong third quarter results, which were highlighted by continued healthy tenant trends, solid investment activity, and timely capital market executions. With quarter-end pro forma leverage of 3.7x and nearly \$1 billion of available liquidity, our balance sheet is well-positioned to capitalize on accretive investment opportunities in a marketplace characterized by increasing pricing power for our capital. Our newly issued AFFO per share guidance for 2024 assumes continued balance sheet discipline and a measured pace of investment activity."

Guidance

2024 Guidance

The Company currently expects 2024 AFFO per share on a fully diluted basis to be within a range of \$1.71 to \$1.75.

2023 Guidance

The Company is updating its range for expected 2023 AFFO per share on a fully diluted basis to \$1.64 to \$1.65 from its previously announced range of \$1.62 to \$1.65.

Note: The Company does not provide guidance for the most comparable GAAP financial measure, net income, or a reconciliation of the forward-looking non-GAAP financial measure of AFFO to net income computed in accordance with GAAP, because it is unable to reasonably predict, without unreasonable efforts, certain items that would be contained in the GAAP measure, including items that are not indicative of the Company's ongoing operations, such as, without limitation, potential impairments of real estate assets, net gain/loss on dispositions of real estate assets, changes in allowance for credit losses and stock-based compensation expense. These items are uncertain, depend on various factors, and could have a material impact on the Company's GAAP results for the guidance period.

Dividend Information

As previously announced, on September 7, 2023, Essential Properties' board of directors declared a cash dividend of \$0.28 per share of common stock for the quarter ended September 30, 2023. The dividend was paid on October 13, 2023 to stockholders of record as of the close of business on September 29, 2023.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. When used in this press release, the words "estimate," "anticipate," "expect," "believe," "intend," "may," "will," "should," "seek," "approximately" or "plan," or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters are intended to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions of

management. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods that may be incorrect or imprecise and the Company may not be able to realize them. The Company does not guarantee that the transactions and events described will happen as described (or that they will happen at all). You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this press release. While forward-looking statements reflect the Company's good faith beliefs, they are not guarantees of future performance. The Company undertakes no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date of this press release or to reflect the occurrence of unanticipated events, except as required by law. In light of these risks and uncertainties, the forward-looking events discussed in this press release might not occur as described, or at all.

Additional information concerning factors that could cause actual results to differ materially from these forward-looking statements is contained in the company's Securities and Exchange Commission (the "Commission") filings, including, but not limited to, the Company's most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q. Copies of each filing may be obtained from the Company or the Commission. Such forward-looking statements should be regarded solely as reflections of the Company's current operating plans and estimates. Actual operating results may differ materially from what is expressed or forecast in this press release.

The results reported in this press release are preliminary and not final. There can be no assurance that these results will not vary from the final results reported in the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2023 that it will file with the Commission.

Non-GAAP Financial Measures and Certain Definitions

The Company's reported results are presented in accordance with GAAP. The Company also discloses the following non-GAAP financial measures: FFO, Core FFO, AFFO, earnings before interest, taxes, depreciation and amortization ("EBITDA"), EBITDA further adjusted to exclude gains (or losses) on sales of depreciable property and real estate impairment losses ("EBITDA*re*"), adjusted EBITDA*re*, annualized adjusted EBITDA*re*, net debt, net operating income ("NOI") and cash NOI ("Cash NOI"). The Company believes these non-GAAP financial measures are industry measures used by analysts and investors to compare the operating performance of REITs.

FFO, Core FFO and AFFO

The Company computes FFO in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT defines FFO as GAAP net income or loss adjusted to exclude extraordinary items (as defined by GAAP), net gain or loss from sales of depreciable real estate assets, impairment write-downs associated with depreciable real estate assets and real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), including the pro rata share of such adjustments of unconsolidated subsidiaries. FFO is used by management, and may be useful to investors and analysts, to facilitate meaningful comparisons of operating performance between periods and among the Company's peers primarily because it excludes the effect of real estate depreciation and amortization and net gains and losses on sales (which are dependent on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions).

The Company computes Core FFO by adjusting FFO, as defined by NAREIT, to exclude certain GAAP income and expense amounts that it believes are infrequent and unusual in nature and/or not related to its core real estate operations. Exclusion of these items from similar FFO-type metrics is common within the equity REIT industry, and management believes that presentation of Core FFO provides investors with a metric to assist in their evaluation of our operating performance across multiple periods and in comparison to the operating performance of our peers, because it removes the effect of unusual items that are not expected to impact our operating performance on an ongoing basis.

Core FFO is used by management in evaluating the performance of our core business operations. Items included in calculating FFO that may be excluded in calculating Core FFO include certain transaction related gains, losses, income or expense or other non-core amounts as they occur.

To derive AFFO, the Company modifies its computation of Core FFO to include other adjustments to GAAP net income related to certain items that it believes are not indicative of the Company's operating performance, including straight-line rental revenue, non-cash interest expense, non-cash compensation expense, other amortization expense, other non-cash charges and capitalized interest expense. Such items may cause short-term fluctuations in net income but have no impact on operating cash flows or long-term operating performance. The Company believes that AFFO is an additional useful supplemental measure for investors to consider when assessing the Company's operating performance without the distortions created by non-cash items and certain other revenues and expenses.

FFO, Core FFO and AFFO do not include all items of revenue and expense included in net income, they do not represent cash generated from operating activities and they are not necessarily indicative of cash available to fund cash requirements; accordingly, they should not be considered alternatives to net income as a performance measure or cash flows from operations as a liquidity measure and should be considered in addition to, and not in lieu of, GAAP financial measures. Additionally, our computation of FFO, Core FFO and AFFO may differ from the methodology for calculating these metrics used by other equity REITs and, therefore, may not be comparable to similarly titled measures reported by other equity REITs.

EBITDA and EBITDAre

The Company computes EBITDA as earnings before interest, income taxes and depreciation and amortization. In 2017, NAREIT issued a white paper recommending that companies that report EBITDA also report EBITDAre. The Company computes EBITDAre in accordance with the definition adopted by NAREIT. NAREIT defines EBITDAre as EBITDA (as defined above) excluding gains (or losses) from the sales of depreciable property and real estate impairment losses. The Company presents EBITDA and EBITDAre as they are measures commonly used in its industry and the Company believes that these measures are useful to investors and analysts because they provide supplemental information concerning its operating performance, exclusive of certain non-cash items and other costs. The Company uses EBITDA and EBITDAre as measures of its operating performance and not as measures of liquidity.

EBITDA and EBITDAre do not include all items of revenue and expense included in net income, they do not represent cash generated from operating activities and they are not necessarily indicative of cash available to fund cash requirements; accordingly, they should not be considered alternatives to net income as a performance measure or cash flows from operations as a liquidity measure and should be considered in addition to, and not in lieu of, GAAP financial measures. Additionally, the Company's computation of EBITDA and EBITDAre may differ from the methodology for calculating these metrics used by other equity REITs and, therefore, may not be comparable to similarly titled measures reported by other equity REITs.

Net Debt

The Company calculates its net debt as its gross debt (defined as total debt plus net deferred financing costs on its secured borrowings) less cash and cash equivalents and restricted cash available for future investment. The Company believes excluding cash and cash equivalents and restricted cash available for future investment from gross debt, all of which could be used to repay debt, provides an estimate of the net contractual amount of borrowed capital to be repaid, which it believes is a beneficial disclosure to investors and analysts.

NOI and Cash NOI

The Company computes NOI as total revenues less property expenses. NOI excludes all other items of expense and income included in the financial statements in calculating net income or loss. Cash NOI further excludes non-cash items included in total revenues and property expenses, such as straight-line rental revenue and other amortization and non-cash charges. The Company believes NOI and Cash NOI provide useful information because they reflect only those revenue and expense items that are incurred at the property level and present such items on an unlevered basis.

NOI and Cash NOI are not measures of financial performance under GAAP. You should not consider the Company's NOI and Cash NOI as alternatives to net income or cash flows from operating activities determined in accordance with GAAP. Additionally, the Company's computation of NOI and Cash NOI may differ from the methodology for calculating these metrics used by other equity REITs and, therefore, may not be comparable to similarly titled measures reported by other equity REITs.

Adjusted EBITDAre / Adjusted NOI / Adjusted Cash NOI

The Company further adjusts EBITDA*re*, NOI and Cash NOI i) based on an estimate calculated as if all investment and disposition activity that took place during the quarter had occurred on the first day of the quarter, ii) to exclude certain GAAP income and expense amounts that the Company believes are infrequent and unusual in nature and iii) to eliminate the impact of lease termination or loan prepayment fees and contingent rental revenue from its tenants which is subject to sales thresholds specified in the lease. The Company then annualizes these estimates for the current quarter by multiplying them by four, which it believes provides a meaningful estimate of the Company's current run rate for all investments as of the end of the current quarter. You should not unduly rely on these measures, as they are based on assumptions and estimates that may prove to be inaccurate. The Company's actual reported EBITDA*re*, NOI and Cash NOI for future periods may be significantly less than these estimates of current run rates.

Cash ABR

Cash ABR means annualized contractually specified cash base rent in effect as of the end of the current quarter for all of the Company's leases (including those accounted for as direct financing leases) commenced as of that date and annualized cash interest on its mortgage loans receivable as of that date.

Cash Cap Rate

Cash Cap Rate means annualized contractually specified cash base rent for the first full month after investment or disposition divided by the purchase or sale price, as applicable, for the property.

GAAP Cap Rate

GAAP Cap Rate means annualized rental income computed in accordance with GAAP for the first full month after investment divided by the purchase price, as applicable, for the property.

Rent Coverage Ratio

Rent coverage ratio means the ratio of tenant-reported or, when unavailable, management's estimate based on tenant-reported financial information, annual EBITDA and cash rent attributable to the leased property (or properties, in the case of a master lease) to the annualized base rental obligation as of a specified date.
